

Support Anti-OxTM

Dietary Supplement

BioMatrix[®]
NUTRACEUTICALS

Protection from oxidative stress with therapeutic levels of powerful antioxidants.

Powerful Antioxidant Support

- Protects healthy cells from OXIDATIVE STRESS
- Reduces the damage caused by FREE RADICALS
- Enhances ENERGY metabolism and cellular respiration
- Helps to PREVENT oxidation-related damage on hormone and immune processes
- IMPACTFUL quantities of high-quality Coenzyme Q10, Alpha-Lipoic acid, and grape seed extract†

Therapeutic Levels of Antioxidants

It would take multiple multi-nutrient antioxidant products to achieve the combined therapeutic levels available in Support Anti-Ox. This popular product is the result of Dr. William Timmins' study of hundreds of patients and their laboratory test results. Using the data yielded by his clinical study, Dr. Timmins was able to synthesize a single product that incorporates antioxidants proven successful in fighting oxidative stress. Support Anti-Ox is effective as a daily supplement and is often used in therapeutic protocols that address advanced oxidative stress.

Available in 60 Capsules (Call for Pricing and Suggested Protocols)

Two Capsules of Support Anti-Ox Contain:

Vitamin A (as 10000 IU Betatene natural mixed carotenoids and 2000 IU Vitamin A Palmitate) - 12000 IU
