Enzymes - Catalysts of Wellness

Support Digestion is formulated to help improve digestive function. The product addresses digestive issues both in the stomach and in the small intestine. One of the ingredients that makes Support Digestion work is Ox bile, a critical component which aids in the emulsification of fats. Support Digestion also contains Pancreatin 8x. This substance contains pancreatic enzymes, chiefly amylase, protease, and lipase, which are necessary for the breakdown of carbohydrates, proteins, and fats.

Available in 90 Capsules Retail - \$31.00
