

# Support Liver™

**BioMatrix®**  
NUTRACEUTICALS

Dietary Supplement

A powerful formula for improving the liver's detoxification capability and overall integrity

## ***A Critical Organ Demands a Smart Formula***

- SUPPORTS healthy liver function
- PROTECTS the liver from toxic overload and cell damage
- Helps in ENERGY production
- AIDS in the breakdown of toxins and metabolic waste
- ENHANCES the activities of detoxification enzymes
- Targets each phase of liver DETOXIFICATION with specific essential nutrients†

## ***The Body's Filter and Protector***

Today's world is toxic. The liver is under unprecedented chronic stress. Environmental chemicals, prescription and illicit drugs, excessive use of alcohol and caffeine, poor diet, pollution, metabolic disorders, parasites, etc - it's amazing that we live with our livers as well as we do. Defending the filter of the body from damage is essential to maintaining health and avoiding disease – a sluggish liver equals sluggish mind and body. Support Liver was designed by Dr. William Timmins to support the two phases of liver detoxification.
