

Support Mucosa™

BioMatrix®
NUTRACEUTICALS

Dietary Supplement

Protection and restoration of the intestinal mucosal lining

Reverse Inflammatory Damage

- Nourishes the intestinal lining, strengthening this first line of immune defense
- Helps protect the body against harmful organisms found in the gut
- Reduces gut inflammation
- Improves nutrient absorption
- Reverses the damage caused by food intolerances, parasitic infections, inflammatory bowel disease, Crohn's disease, colitis and leaky gut syndrome[†]

Your First-Line Immune Defense

Healing of the mucosal barrier can occur when the causes of inflammation are removed and targeted nutrition is delivered. Support Mucosa is specifically formulated to accelerate repair of the mucosal barrier of the gut wall, restoring healthy form and function to damaged tissue. It reduces inflammation and supports the liver by preventing toxins from leaking through the gut wall, while soothing and restoring the intestinal lining.
